

# WILL SATHER

will@sather.ws • www.sather.ws • Boston, MA

## Experience

---

### Vercel

Sales Engineer

(March 2025 – Current)

### Infinite Ranges (prev. VMware / Broadcom)

Software Engineer

(June 2022 – March 2025)

- Full Stack engineer on client engagements enabling customers on modern engineering best practices while rapidly 'delivering working software in production'.
- Deliver high-quality, thoroughly tested software using Java, Typescript, Spring Boot, and React for projects in e-commerce, finance, and healthcare industries.
- Practiced Extreme Programming (XP), Test Driven Development (TDD), Balanced Team methodologies, and Pair Programming with client engineers to improve software quality.

### Ivanti

Junior Associate Software Engineer

(September 2021 – May 2022)

- Collaborated with a small team to build a cloud native application to integrate with Microsoft Intune to launch a new product offering within Ivanti Neurons cloud platform.
- Co-developed a RESTful C# backend, Angular micro-frontends, and configured the necessary Azure infrastructure to support a production launch.

## Internships
